

FALLEQUINOX

A time of Balance

Depending on the year September 19 - 23

The Fall Equinox is the second harvest celebration.
It is a time of balance. Light and dark are in balance and after this,
Night will be longer than day.

We celebrate the harvest with ears of corn
And the story of the star in the apple.

We bless the harvest and herbs that have been collected.
We fill the cornucopia with what we want to increase.

Happy in Balance!
