

SPRING EQUINOX

Seed Celebration

Depending on the year between March 19 - March 23

A celebration of the seed and sometimes of the egg.
Writing out intentions with the power of the seed.

It is a time of the wind and the birds. We tap into this energy of the east.
The power of the rising sun.

We celebrate the balance of light and dark, with the light growing
Stronger than the dark from this point on.
